Original design. Superior craftsmanship. Enduring quality.

# Pot Fillers

Elevate your kitchen with Perrin & Rowe pot fillers, expertly handcrafted in the UK and designed especially for Australian kitchens.

The hottest style statement for your kitchen, these exquisite Perrin & Rowe taps show everyone you love your kitchen. Dispensing water directly into pots and preserving-pans whilst on the stove, the arm extends easily over front or rear elements with a convenient reach of 590mm, before seamlessly folding away after use.

Encompassing a quarter-turn shut off valve at the wall, the pot filler is highly functional and available in all Perrin & Rowe finishes.

With unwavering attention to detail, coupled with a company ethos for engineering excellence, Perrin & Rowe products define style, proportion, detail and functionality. Not only aesthetically beautiful, but consistently practical and pleasurable to use.

Created especially for the Australian market, the Perrin & Rowe pot-fillers comply with Watermark standards. Easily installed with concealed fixings, measure the desired height above your tallest pot on your stove top and direct your plumber to connect to a cold-water supply.

## Finishes & handle options

Perrin & Rowe offers Australian designers and home owners a wide selection of premium quality finishes. The Pot Fillers are available in Chrome, Nickel, Pewter and Gold finishes. Taps in satin or polished uncoated bare brass are also available by special order. Choose White or Black porcelain levers to match with your traditional Phoenician, Parthian, Mayan, or Ionian taps, or Country style Metal levers to match in with your Provence, Picardie or Aquitaine taps.

**Chrome:** A shiny finish with a hint of blue for a classical or contemporary feel.

**Gold:** This finish, which contains real Gold, will give a luxurious look.

**Nickel:** A shiny finish with a golden glow. If left, Nickel will develop an aged patina similar to silverware, with the occasional polish restoring its original gleam.

**Satin brass:** This is uncoated bare brass brushed for a satin look.

**Pewter:** A satin (brushed) Nickel finish which is the perfect complement to stainless steel sinks and appliances.

**Polished brass:** This is uncoated bare brass in its natural form.
